"We are impressed with marathon runners and their capacity for lasting the pace and finishing the race. But being a marathon runner takes time and patience to train. It takes knowing how to refuel as the race is run. It requires tuning in to the surroundings to adjust pace and style. It takes tenacity to endure and finish well."

Life is a marathon. We are in it for the long haul. We want to finish well. To do that we need to learn skills. We need to learn how to refuel and take in spiritual food. We need to tune in to life and learn from what it offers. We need to endure and develop a spirit of tenacity. This year in Camp 18-Up we seek to train campers in these areas of Fueling Up, Tuning In, and to be Tenacious in Life!

Come join us as we listen to God's Word, work through Life Issues, talk about the Stuff we encounter in Life, and find Companions who will journey with us.

See you all at Camp 18-Up!"
