The TRAC Board of Youth Work organizes the annual Youth Leadership Development Programme (with a break every 4th year for Youth Quake) to help facilitate our young people in increasing their leadership capacity through community, study of the Word, and acquiring skills in leadership. While we do that, we recognize the fact that God has ordained the family to be the primary place to grow our young people and that our role as a youth ministry is to supplement what must essentially take place at home. We see the importance of partnering with parents for the important work of raising the next generation and the Parent's Track (2nd year in running) seeks to help foster a stronger partnership and helping parents to complement the work that is going on in YLDP.
